# Cyber Extortion Attacks

## *Insights from the Frontlines*

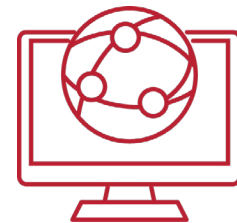

As the numbers and costs surrounding cyber-attacks continue to grow, our Cyber team has put together a panel of specialists to discuss extortion attacks and insights around preventing and responding to them.

We have partnered with Sygnia to review a high-impact cyber extortion attack against a U.S.-based corporate entity. They will offer insights by providing:

- Attacker and responder perspectives
- Examples of real-life events
- Experiences from the frontlines
- Latest techniques threat actors are using against organizations
- An example of this type of attack within the network

Our panel of specialists from Brown & Brown, Sygnia, and Hogan Lovells will share recommendations on adapting resilience and critical points to consider when responding to these cyber-attacks. They will also provide knowledge from an incident response, legal, and insurance perspective.
